**Subject:** Attention Rep. Joseph Graves and all Oversight Committee members

Rep. Joseph Grave and Oversight Committee members,

I am writing in concern for the meeting you have scheduled tomorrow, November 30<sup>th</sup> at 9:00 am in Lansing Michigan.

I would like to add my voice to the many families of vaccine injured children and advise the following: As the parent of a child that was horribly vaccine injured and continues to have monthly treatments to treat his auto immune encephalitis I believe the following:

- The MDHHS should not have the right to create rules regarding immunizations that change our state regulations without the proper public notice and hearing process.
- The MDHHS should not have the right to mandate any immunizations be required by law.
- It is our rights as parents to seek a vaccine exemption for our children attending public school due to our choices on vaccinations.

I believe that we must maintain our right to vaccine choice in Michigan and taking this freedom away is wrong and does not take into account the MANY children that are impacted and hurt by vaccines. I believe you as our legislators needs to hear from your constituents and understand that this is not something that can be bull dozed through and against

Michigan families. Families need to maintain their right to vaccine choice.

Sincerely,

Julie Cadman
